FULL SERVICE AUTO REPAIR AND JCI INSPECTION

WHAT IS JCI?

Japanese Compulsory Inspection or JCI is a safety inspection required for all vehicles registered in Japan, and must be renewed every two years.

The Pit Stop Garage can do this inspection, along with the requisite paperwork and registration updates.

JCI inspections are very thorough, and may or may not require repairs on inspected vehicles. To allow time for repairs, inspections should be scheduled at a minimum 2 weeks to 1 month prior to the date of expiration listed on the vehicle's title.

Motorcycles under 250cc Do Not require a JCI physical inspection, only need JCI policy.

Motorcycles over 250cc must have physical inspection and JCI policy.
The basic cost is ¥14480 plus \$40.00 inspection fee for bikes. All other vehicles are between ¥28,000 and ¥50,000 plus \$50.00 inspection fee.

JCI appointments are available Monday through Friday.
